

School of Performance Registration Form

Dear Skaters and Parents,

The School of Performance is based on the concept of accessibility for all skaters who have a desire to learn how to skate, and are looking forward to performing in front of an audience without the stress and the high cost of the competitive world. The classes will be in training the Monday from 7:15 – 7:45 PM. Each skater entering for the audition must be a member of the ISI or USFSA. If not, the cost is \$ 15.00 yearly. The first audition will determine the level of the skater. The requirements of the troupes may vary at the Director's discretion. Each skater is important to the troupe and no one will be turned away. The spirit of the school of performance is to create the best performance for the pleasure of the public and the learning experiences of the skaters. This includes every person from the principal skaters to the sound technicians and the volunteers who help make our productions a success. We will also guide those skaters as well, as we follow the needs of the professional ice producers. During the classes you will learn all the basic techniques of an ice production. These techniques include applying makeup, the basic rules of acting and dressing, new exciting steps, new costumes, new light designs, and new music and props. These are all included as a part of the package we offer you. We are also looking for helpers who want to be closer to our project. A production needs the commitment of a lot of people; from creating costumes, helping us move the props, lighting technicians and much more. The price for the course is \$ 200.00. At the end of the course, the production will be performed. Costumes are the property of the School of Performance. No refund will be given after the course begins, and no discounts will be granted for late registration. No skater under the school of performance will be rewarded any money for any performance. Please join us in making this a family working together to create great entertainment in the art of ice skating.

DEADLINE FOR REGISTRATION 12/31/2009
